

Word 2 html & web & music

1. WORD 2 html

- a. Use word to open the file

<http://oldtown.glendon.yorku.ca/~teaching/2023/huma2655/media/word2html/Page2.docx>

- b. Create your URL at:

oldtown.glendon.yorku.ca/~lastname/2023/huma2655/media/word2html/

Make a web page at your URL above named Page2.html that looks exactly like this:

oldtown.glendon.yorku.ca/~teaching/2023/huma2655/media/word2html/Page2.htm

2. Audio edit and database

- a. Consider the short music by Drake:

<http://oldtown.glendon.yorku.ca/~teaching/2023/huma2655/media/drake/DrakeLifeGood.wav>

Use Audacity to edit and to export 3 multiple clips as 1.mp3, 2.mp3 and 3.mp3

Upload the three clips above in your web site at:

oldtown.glendon.yorku.ca/~lastname/2023/huma2655/media/database.clips/
